

Shower channels HL53-series: New, low budget „standard“- cover InFloor HL053S/90(100) (120)

Fits for the already existing drain bodies HL53K and HL53KF

Produktbeschreibung

- Our well-known shower channel series HL53 “InFloor”, consisting of the drain body HL53K (height 90mm) or HL53KF (65mm) and the inherent covers, made of brushed or polished stainless steel are now extended by a simple but elegant cover: HL053S (S like “standard”).
- A new bending technology of the cover profile now makes it possible, to offer a low budget version, without losing elegance, stability and advantages like the integrated cross slope. These “standard” covers are available in length 90cm, 100cm and 120cm and may be shortened to the right length by cutting (with an iron saw or with an iron cutting disc). It is suitable for floor coverings from 12mm to 32mm incl. tile glue. It is fixed on the waterproofing with normal tile glue.

- Available in length 90cm, 100cm and 120cm
- Position on the wall or in the shower surface
- Stainless steel V2A = 1.4301 = AISI 304
- Integrated cross slope
- Shortable to any length
- Plastic frame pre-mounted
